

■ Status

In industrialization – SOP 2017

Up to now 1 serial orders received

## Principle

High integration for different technologies meet the UV-protection and energy-control requirements , also improve the visible zone by applying hydrophobic layer

## Advantage

IR and UV blocking, and water repellent

No negative impact on glass mechanical

### ■ Used on·

Door glass(tempered glass)

### ■ Status

In industrialization – SOP 2017

Up to now 1 serial orders received
